

**PROFESSIONAL STAFF SALARY SCHEDULES
STIPEND POSITIONS**

Faculty members and other persons may be paid compensation above and beyond basic teacher contractual obligations in accordance with the supplemental salary schedules/or stipended positions annexed to the basic teachers' contract.

Persons to be appointed to said stipended positions shall be nominated by the superintendent and approved by the board. The board prefers that faculty members serve in stipended positions. Accordingly, the superintendent shall attempt to, but shall not be obliged to, nominate a member of the faculty for appointment to a stipended position.

Appointees shall be issued a written contract for the terms of their employment, but no appointment, or contract, may be for a term of more than one year. Each appointee shall be evaluated by his/her supervisor, or other designee, at least once during the contract year.

Stipended positions may be created or eliminated upon approval by the board and compensation shall be in accordance with any contractual obligations.

Adopted: 10/10/89; revised 5/11/94
