

SCHOOL DAY

This school system exists to provide education to the children and young people who reside within the unit. The Board believes that the most effective instruction occurs through the direct contact of competent teachers with their students in the teaching-learning setting. Therefore, it is the intent of the Board to maximize instruction time for each age level within the student body during every typical school day.

The number of school days shall meet or exceed the state requirement and be set annually by this board and be included in the school calendar. Abbreviated days to be included for in-service, conferences, etc., shall be kept to a minimum.
