

Technology Plan Committee February 5, 2015

The Technology Plan Committee met on Thursday, February 5th from 3:15-4:15 to continue the revision of our current 3 year plan.

Present were: Kim Silsby, Kathy Casparius, Deb Orth, Donna Madore, Katie Vose
Donna Madore shared with the committee that we received feedback from Darren Joyce, (Director Boys & Girls Club) and feedback from Zane Clement (ASD Adult Education). Kathy Casparius has included the revisions in the plan. Donna Madore will follow up with Betsy Pohl from Lithgow Library.

We are still pursuing feedback for the National Guards spokesperson. Kim Silsby shared that scheduling of dates for digital citizenship training is in the works. Bruce Dostie has contact with the National Guards spokesperson.

The committee resumed review of the current plan from page 15 Section VIII. We got through Section X. We need to include in the accountability revisions that this committee will meet at least 2 times per year. We also need to ensure the staff technology self-assessment survey gets completed and collated annually. Donna Madore needs to check with Cony guidance on student support assessments, Kathy Casparius needs to check on MLTI leadership and the self-assessment survey with Pam Stockmar.

Next meeting will take place on February 26th at 3:15. We will begin work on section XI Promotion of Various Curricula and Teaching Strategies that Integrate Technology.
