Attn: Jan Rollins

Dear Jan:

I recently had the pleasure of participating in the Junior Achievement program at Cony Junior High School. I elected to do two half day sessions and was able to meet with all of your 7th grade students. To my surprise, the curriculum through JA was very similar to the format that Connected Credit Union does with your high school Seniors at our annual financial fitness fair. It was a very rewarding experience and I look forward to volunteering again next year!

The most impactful things I experienced during my short time at your school was not *my interaction* with the students but each *Teacher's interaction* with their students. The patience they display and the way they communicate with their students was heartwarming. As in any field where a job puts you in the public eye, my thoughts are that positive feedback is not something that comes along as often as it should. It was very evident that day that your teachers are dedicated to the well-being and education of every child in that room. They are caring and are open to helping in all areas that a student may find a need.

In sharing this with you it is my hope that your staff knows that their endless efforts do not go unrecognized. It's inspiring to know that they are passionate about the children they are teaching and are making a positive impact in the lives they touch every day.

Sincerely,

Wendy Brochu
