

Summer Assignment 2021-2022

Welcome to the World of Geography!

In an effort to give all of you a head start in your learning and to build a rock solid foundation for all of you to start with, take some time and define the following words. Pace yourself and it will not seem such a daunting task.

I know it looks like it will be dreadful but if you do a few a day it will be done before you know it.

PLEASE do not write a paragraph for each word. Define the word in language that you understand.

THIS IS DUE WHEN YOU RETURN TO SCHOOL IN THE FALL. September 1st
