

STUDENT AUTOMOBILE USE AND PARKING

High school students may be allowed to use street legal vehicles for transportation to and from school. Other motorized vehicles may be used to transport students to and from school with permission from the Principal.

All vehicles so used must be properly parked in the designated school parking lot and may not be moved or entered during school hours, prior to dismissal of the student, without the permission of the Principal.

The administration will establish rules and regulations for the safety of all persons using school lots and for the maximum protection of the authorized vehicles. However, the district shall assume no responsibility for damage to authorized vehicles or for theft of authorized vehicles or articles from authorized vehicles.

Students who do not observe the school rules regarding use of vehicles or who do not operate them on school property in a safe and prudent manner may lose the privilege to bring their vehicles to school.

No vehicle may be used to transport any other student(s) other than the owner (operator) during the school day without permission from the Principal.
