

Lincoln Teachers Technology Use in the Classroom 2018

- 13 classrooms have a Smartboard.
- All classroom teachers have a projector and document camera.
- 1:1 computing 4-6; 2 computer carts
- Kahoot to integrate social studies, library, and science skills
- Web searches to integrate science and social studies
- Google docs for writing (word processing) and keyboarding
- Google slides
- IXL Math skills
- Brainpop for Science and Social Studies/ Brainpop Jr.
- Audio books
- Laptops in K-2 classrooms for Daily 5 phonics rotation
- Interactive MyMath
- Moby Max
- Research for reports
- Common Sense Media~ Digital Citizenship lessons
- Capstone- story telling online from the library
- Google Classroom
- Interactive Smartboard games for learning
- studiesweekly.com (a Maine Studies site)
- typing.com
- padlet- a google doc where people can collaborate and post pictures or ideas to a similar board. This was used for an ongoing K-W-L with the 4th grade Iditarod unit.
- thinglink- can create an interactive picture with different links or information attached to the picture.
- quizlet- create interactive games for the students to play that can be customized. Used a lot for ELA with grammar. Can also create flash cards to study with which are used for a vocabulary unit for the 4th grade Iditarod. The kids LOVE going on quizlet because they can play on their own and the difficulty can be adjusted by them.
- Interactive Government game
- YouTube educational video clips
- Peer presentations
- Socrative- Online quiz, exit tickets- students log in and answer the question, data is sent to the teacher
